6" "KEEN" SELF-CONTAINED ELECTRIC SAW BENCH

No. 404. A.C. ONLY.

The saw is complete with Motor on common bed plate and can be moved to any convenient source of electricity such as plug or light socket.

The Motor is 1/4 h.p. totally enclosed with dust-proof bearings, all winding very heavily impregnated with insulating varnish and tested to withstand 2,000 volts. Constant speed type at 2,800 r.p.m., internal centrifugal starting switch of robust design. A.C.200/240. 1 Phase. The Motor is very efficient to run, taking only 300 watt on full load and is built on BS-170/1926 and is fully guaranteed for twelve months. This bench can be fitted with Carborundum Grinding Wheel for cutting tiles.

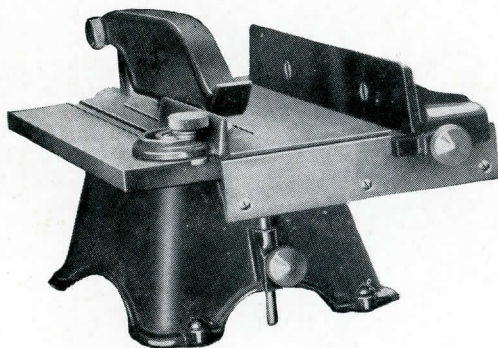

Saw Bench. Rise and fall table, mitre guide adjustable to any angle. Capacity $1\frac{3}{4}$ " thick x $5\frac{1}{2}$ " wide. Size of table 12" x 10". Approximate weight 54 lbs. Spindle is carried in high grade Ball Bearings in dust proof housings.

Note! This Saw Bench is ALL Cast Iron and Steel.

PRICE : £ 18 : 3 : —
